STANDARD OPERATING PROCEDURE

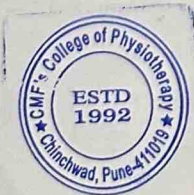

The research title / protocol must be sent to the IEC at least 15 days before the presentation date. Faculty and students must have their research proposals/synopsis checked for plagiarism before submitting their research papers. It is only after that they will submit their synopsis to the IEC.

IEC meetings are arranged to approve the title and synopsis of the dissertation for first year PG students and Ph.D. scholars before they are submitted to MUHS University, Nasik. Specialists in the field are welcome to enhance and confirm the research protocol as needed.

The principal investigator needs to provide a presentation in audio-visual format on the summary/project of the research. In case a student is unable to present due to a medical issue, they must provide a medical certificate. If IEC allows, the candidate may be requested to present the synopsis as required

All research projects/synopsis at the institution must receive written approval from the IEC before they can proceed, as per the committee's decision. Approval from the IEC is required for all research synopsis / projects submitted by staff, Ph.D. scholars, post graduate students, and undergraduate students.

All research papers are stored for at least five years following the conclusion of the project. IEC will oversee the advancement and finalization of the research project/dissertation.
